

Pipard Panichjaranai

4A Computational Mathematics

ppanichj@uwaterloo.ca | (437) 984-2004 | linkedin.com/in/pipard | github.com/sunairbison

SUMMARY OF QUALIFICATIONS

- Strong analytical and quantitative skills developed through academic training in Mathematics and hands-on experience with cost estimation and data entry for a \$300K+ construction project.
- Proficient in data analysis tools including Python, SQL, Excel, and R; capable of cleaning, transforming, and visualizing data to support business decisions.
- Academic experience in Bayesian and Frequentist inference methods and time series regression analysis.
- Proven adaptability and communication skills through roles in customer service, teaching, and team-based environments.
- Quick to learn and thrives in fast-paced settings, with demonstrated ability to balance technical precision and collaborative problem-solving.
- Experience using LaTeX and R Markdown for writing mathematical concepts and reporting technical information.

EXPERIENCE

Assistant Site Estimator - SonnyG Tech - Toronto, ON Jan - Apr 2024, Jan - Apr 2025, Sep - Dec 2025

- Assisted in reviewing blueprints, project specifications, and site plans to support accurate cost estimates for various construction projects.
- Leveraged Microsoft Excel to manage data entry and cost reporting for a \$300K+ construction project, maintaining accurate and up-to-date records.
- As part of a 4-person team, constructed a fence and 22 ft. X 18 ft. wooden deck for a backyard.

Restaurant Staff - Chai Pochana - Toronto, ON Jul - Aug 2022

- Demonstrated customer service skills by handling the orders and requests of customers and communicating efficiently with other restaurant staff to provide for the customers.
- Sold food as a street vendor during TD's Salsa on St. Clair street festival, which resulted in an increase to sales.

Teaching Assistant - Spirit of Math Schools - Toronto, ON Sep 2019 - Jun 2022

- Guided students during classes, answering and explaining any inquiries about higher-level maths concepts, leading to better comprehension of the material.
- Monitored and updated class attendance records daily to ensure compliance and accuracy.
- Adapted to pandemic learning, ensuring both online and in-person classes run smoothly for teachers and students.

EDUCATION

Computational Mathematics, Honours Co-op May 2023 - Present

Mathematics-Chartered Professional Accountancy, Honours Co-op Sep 2022 - Apr 2023

Relevant Coursework:

- Time Series Econometrics (ECON 423)
- Computational Inference (STAT 440)
- Computational Statistics and Data Analysis (STAT 331)
- Applied Linear Models (STAT 341)

Awards:

- *KPMG Entrance Scholarship* - Awarded to outstanding students entering Year One of any program in the University of Waterloo's School of Accounting and Finance.
- *President's Entrance Scholarship of Distinction* - Awarded to students with an admission average of 95% or above.
